STRONG & DURABLE

- High unsupported rack and load capacities
- Proven in retail and work-in-process environments
- Reinforced perimeter reduces impact damage

SAFE & EFFICIENT

- Lightweight
- Welded design free of fasteners
- Reduced insurance premiums
- Fire resistant

"GREEN" & SANITARY

- Steel is the most recycled material in the world
- Its galvanized composition prevents rust, will not attract or harbor insects and will not generate warehouse debris
- Non-porous design prevents contamination
